

# EKKLESIA AFRIKA

BIBLICAL RESOURCES FOR  
BUILDING HEALTHY CHURCHES

# About Us

---

Ekklesia Afrika exists to equip the church in Africa by providing access to theological resources through

- publishing,
- informal theological training,
- Build the Pew (BtP), and
- hosting conferences and events.

## **Our Vision**

---

Ekklesia Afrika envisions the reproduction and revitalization of healthy, gospel-centered churches across Africa that are shaped by a biblical vision for the church, for the joy of the nations and the glory of God.

## **Our Mission**

---

Ekklesia Afrika seeks to see the church in Africa strengthened by making biblical resources accessible through three arms; publishing, the SOMA Program (our non-formal theological training program), and hosting of conferences and events.

**How do we do this?**

# 1. Publishing

---

Ekklesia Afrika Publishing (EAP) exists to:

- resource the informal pastors' training (Soma) program,
- get great biblical books into the hands of both pastors and laity in Africa.

# Local Authors

One of our aims is to cultivate a community of African authors who seek to apply scriptures to address our continental issues.

We are glad to have signed John Musyimi as our first African author.

## 2. SOMA Program

---

## Problem

---

In Sub-Saharan Africa, resources are hard to find and when they are found, price and language tend to be prohibitive.

## The Solution

---

SOMA is a:

- non-formal theological training program
- philosophy of cohort learning and Socratic discussion.

# Mode of Study

---

The course of study is spread out across four years with each year having a particular emphasis on the theological formation of the student.

The cost of the program is **USD 3.5** per student, per month.

Each month the pastor receives:

- A **book**
- A **study guide** developed to help him get much out of the book and apply what is learnt in the African context.
- A **report writing guide** that helps him meaningfully engage with what he has read.

### 3. BTP (Build the Pew) Program

---

Whereas our SOMA program is primarily aimed at pastors, our BTP program seeks to provide all Christians access to sound biblical resources.

# BtP Goals

---

## Cultivating a High View of Scripture.

Since the Scripture is inspired by God, our goal is to aid the believer in understanding how the Word of God is inerrant, sufficient and authoritative for all of life.

## Developing Sound Theology

By distributing sound theological resources, we aim to see the Christian develop a robust understanding of theology, that is; biblical, practical and systematic theology.

## Rediscovering the centrality of the Local church

Our aim is to see the participants develop a biblical understanding of the church, its importance and significance in the life of God's people for the fulfillment of His redemptive purposes in the world, and encouraging their meaningful participation in church life.

## Enroot the primacy of the Gospel.

We earnestly pray that the participants will clearly and concisely articulate the gospel message -- Why did Jesus need to die? What did Jesus' death accomplish? What is man's responsibility in conversion and sanctification? What are the fruits wrought in the believer by the gospel? - which will stir in the Christian a passionate desire to proclaim this message to those lost in sin.

## 4. Conferences & Events

---

### The Problem

---

Africa is not lacking in conferences, but if you are looking for a high quality conference where teaching is exemplary and the resources being distributed are useful, then we can certainly say that we do not have enough of those.

# The Solution

---

## Proclaim Conference

Proclaim is an annual conference, hosted with the aim of equipping church leaders to passionately and accurately teach and preach the Scriptures to the churches they serve.

## Charles Simeon Trust (CST) Workshop

This workshop is for those who have a responsibility for the regular public preaching ministry of the Word of God and for men preparing for that kind of ministry.

# Our Plans

---

- Acquiring publishers' copyrights and licenses.
- To publish more African authors who produce biblically sound resources.
- Increasing our BtP network.
- To grow our SOMA network by equipping pastors with essential knowledge and skills for faithful ministry.
- To host more annual conferences and workshops that not only focus on pastors but women and the youth as well.
- Radio Ministry.
- Proclaim Conference.

# Our Partners

---

# Conclusion

---

**We look forward to partnering with you to make our vision a reality.**
