AFRICAN VOICES ARE BEING HEARD

"The *Africa Study Bible* brings the people of the African continent closer to God in their own context and their own culture."

"French-speaking Africa is known for its material poverty. One element of this poverty is the lack of Christian literature resources in the French language. The need for French-language Bible study materials is, and remains to be, an even more profound source of poverty for the region."

– Dr. Daniel Bourdagné
